Learning Opportunity

In this session you will have the opportunity to explore some recently developed Grade 5 Science Resources. Participants will walk through how these resources are connected to the curriculum, how to use them and where they can be located! There are some extra resources created just for the participants of this session too!

Presenters

Jessica Oracheski

Jess Oracheski is a science education consultant for Learning Network Educational Services. She is also currently a classroom teacher, teaching junior high science since 2010. She has a zest for life, and always tries to infuse fun into her classroom. She has a passion for incorporating technology into her daily lessons, making her courses paperfree for almost 10 years. She constantly strives to make her lessons interesting, memorable, impactful, hands-on and FUN! When she isn't teaching or consulting, she is spending time with her 3 young boys on a farm she shares with her husband outside of Irma, Alberta.

Registration Notes

This learning opportunity will be recorded, and the link will be emailed to all registered participants following the workshop.

All learning opportunities are MST.
